BUILDING THE FINEST BOATS SINCE 1956

2021 ALUMINUM BOATS

# ENGINEERED TO PERFORM! DESIGNED TO IMPRESS!

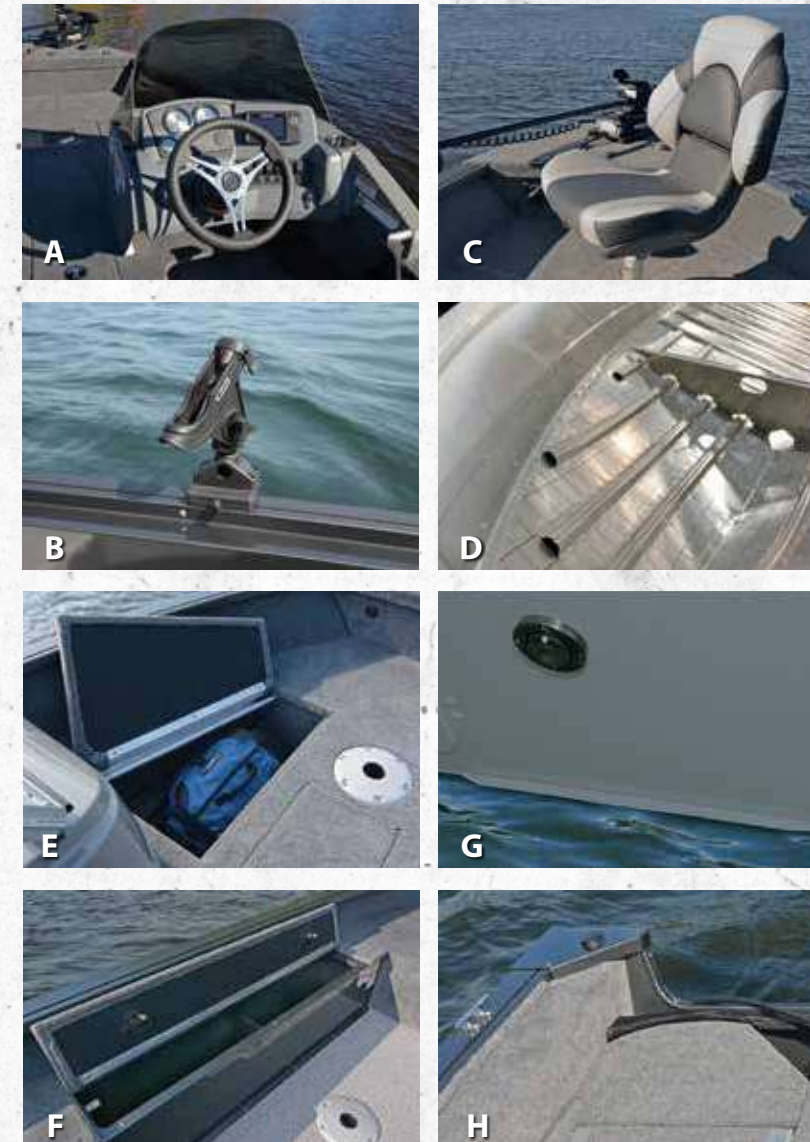

MirroCraft is a leader in the aluminum fishing boat market and offers the best value. We are committed to our customers and building the finest fishing boats possible. Our boats are designed with both performance and style in mind.

As a leader in design innovation and value, we continue to research new methods and materials to ensure the finest finished product. We go the extra step to test these components. Our attention to detail adds up to increased comfort, pride in ownership, safety, and retained value. This allows us to offer the latest and most advanced construction features of any boat builder around.

**HONDA**

## QUALITY CONSTRUCTION

- A** Molded fiberglass console is fade resistant to the sun. Other features include stainless gauge bezels with brushed pewter look, accented gauge panels, ergonomic switches, lighted gauges, and a comfortable steering wheel.
- B** "Mirro" Track Gunwale Rail System on select models.
- C** Roto-molded upholstered fishing seats have sculpted side bolsters and plenty of support for hours of comfort on the water.
- D** Double skinned hull on 17', 18' and 19' models. Shown also with our industry leading 10" rib spacing.
- E** Huge storage compartments.
- F** Seamless roto-molded livewells offer leak free performance, optimally placed aerators, and ease of draining and cleaning.
- G** Integrated performance tabs enhance out-of-the-hole and top end performance. Available on all models from the Sportsman through the Aggressor EXP.
- H** Stronger custom extruded gunwales allow for more interior room and overall hull strength.

## QUALITY BENEATH THE SURFACE

Our floors are high-quality marine treated plywood decking that sits atop strong aluminum stringers that are supported by cross ribs. Injected foam fills all necessary pockets and adds flotation and contributes to our famous quiet ride.

Composite transoms are a standard feature on all models. This makes the hull incredibly strong and rigid.

Injected foam flotation adds required flotation, deadens sound, and adds rigidity to the construction.

# AGGRESSOR PRO X

# BOAT COVERS

## WE'VE GOT YOU COVERED... options to protect your boat in all types of weather!

MirroCraft offers an extensive line of durable boat covers for you to choose from. These covers provide excellent protection from all types of weather and are built to custom fit your specific boat. All covers are made from a strong canvas which is sure to last throughout many years of use.

- A Full Canvas Top with Aft Curtain
- B Bimini Sun Top

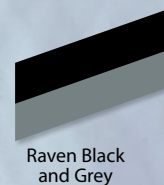

- C Convertible Top
- D Trailerable Mooring Cover

Trailerable mooring cover details.

## BOAT COLORS

MirroCraft is dedicated to constant improvements. Note the specifications, options, color selections, and model availabilities of our boats are subject to change without notification.

## Mercury behind you, the world before you.

MirroCraft Boats is proud to recommend Mercury FourStroke outboard power. When you rig your boat with an outboard from Mercury, you know you're getting the best-performing, most rugged engine in the industry. Mercury outboards perform reliably in any condition, and will get you to your prime fishing spot quicker, so you can spend more time casting and less time stressing. So let the fishing and fun begin. **Mercury is behind you all the way.**

### 150HP FourStroke

- The highest displacement in its class. Works less to produce more torque, delivering the best in performance and efficiency.
- A reliable low-friction valve train and exclusive oil cooler enhances performance and extends the life of the engine.
- Twin balancer shafts and the focused mount system reduces overall vibration, delivering smooth performance.

### 90-115HP FourStroke

- EFI turn-key reliability with ease on the pocket book.
- Robust gearcase design maximizes your boating experience.
- Large displacement supplies plenty of torque for optimal performance.

### 40-60HP FourStroke

- EFI increases power and improves fuel economy
- Smooth, positive shifting for a better driving experience
- Refined throttle resolution setting for smoother low-speed operation

### 25-30HP FourStroke EFI

- 3-cylinder design provides smoother overall operation than competitive 2-cylinder models
- Battery-free EFI provides turn-key starting and quicker throttle response
- 15 amp high output alternator provide more charging power for fish finders and electronics
- 25hp is the lightest model in its class at 157 lbs

### Enertia® Propeller

- Three-blade stainless steel propeller.
- Improves acceleration and top speed.
- Perfect for 150HP and above.

### Spitfire® Propeller

- Four-blade aluminum propeller.
- Tenacious grip in turns.
- Perfect for 25HP – 115HP.
